

# Ohlendorf Intercom

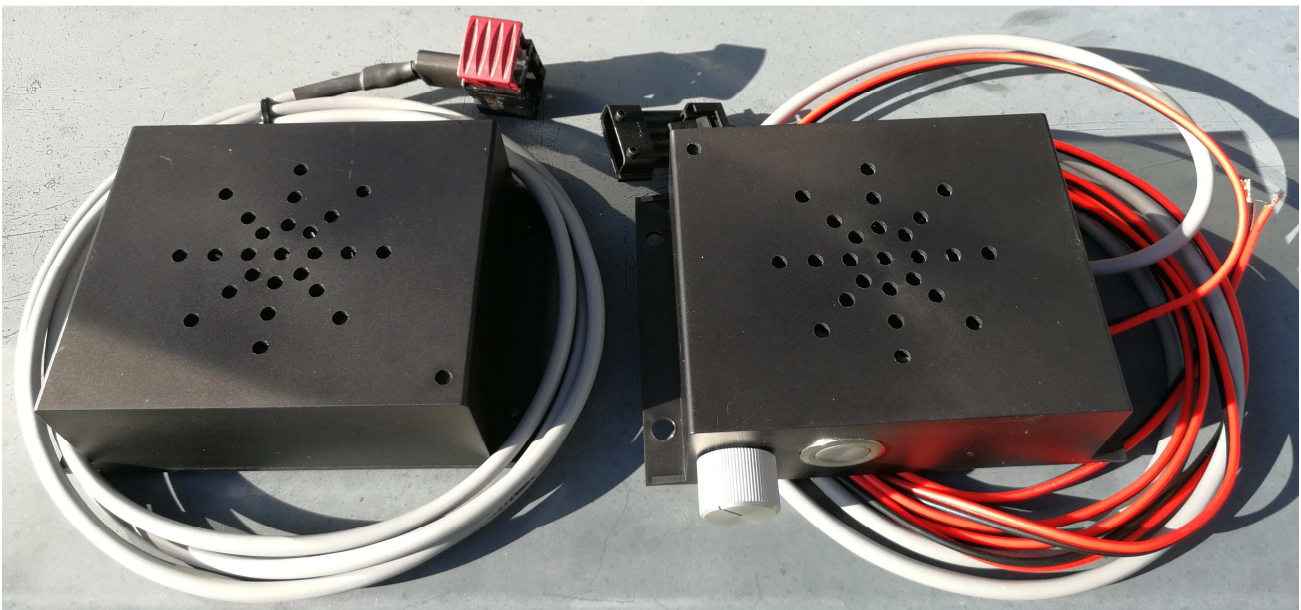

## !!! Protect your employees now!!!

Whether in the area of public transport or in the food sector, your employees come into contact with other people everywhere.

This mainly affects bus drivers, forklift drivers and all other professional groups that are involved in daily delivery

**Many companies are now using our intercom to protect their staff. Now fast action is required to slow down the corona spread! It's best to order TODAY. For more secure communication between your employees, customers and suppliers.**

The bus driver can be separated by a window and still communicate with the passengers. The forklift driver can remain in the cabin during the loading process and still speak to the surrounding people

The main features:

- E1 certificate for vehicles
  - easy assembly
  - easy handling
- Outside station switched through to inside station.  
(Reversal of speech direction by pressing a key)
